REMOTE VIEWING

Remotely monitor your DVR over the internet. Static IP's not required. Use your own or the clients own webspace to link to their TotalSecure DVR or use one of the services available from TotalSecure. Allow us to act as your client or your business gateway. Visit www.TotalSecure.ca and clients can enter their login and password and view their sites - as easy to do as it reads here. Let us host your dealer website and have clients use your site - many options available.
